Ved å se på dataene sammen med kartene i QGIS, så ser vi at *kc__tracts10_env_data* har én observasjons som faller utenfor kommunegrensene.

Figur 1: Observasjonen utenfor kommunegrensene.

Ved å studere *kc_tracts10_shore_env_data* ser vi at alle observasjonene ligger fortsatt innenfor kommunegrensene, men ved å legge til shore-kartet som viser vannlinjen ser vi at det er 25 observasjoner som ligger utenfor denne vannlinjen, og derfor gir 25 NA.

Figur 2: Observasjoner utenfor vannlinjen.

```
